of Teekkari Operations
- TTE Fund**

**Teekkaritoiminnan
edistämisrahasto
- TTER**

TTE Fund is a fund that supports projects, events, acquisitions and other operations of Aalto University students and associations and communities operating in connection with AYY. The goal of TTE Fund is to support and stimulate student activities in the Aalto community in all their forms.

All members of AYY can apply for grants!
Not only the technical students.

The Fund's capital (5M€) consists of the stocks donated on 2 Mar 2006 by the Association for the Promotion of Teekkari Operations (TTEY ry, today known as the Guild of the round tower) to the Student Union of the Helsinki University of Technology (TKY).

The purpose of the Fund is to support the goals of AYY and its members and the communities operating in connection with it, as well as to generate and maintain active interest in technological, scientific, financial, artistic and societal issues and cultural activities by awarding grants.

A stylized cartoon character with a black and white mask, large white eyes, and a wide, toothy grin. The character is positioned in the top right corner, with its mouth open as if speaking. The background features a vibrant, abstract design with overlapping geometric shapes in shades of orange, yellow, and red.

In practice, the fund values projects that are amazing and inspire people to work together. The more Aalto people are able to participate in or enjoy the project, the better!

"TTER supports activities that reach for stars, get others excited, is loud and visible"

TTER appreciate:

- ▶ New and special projects, productions, events and crazy ideas
- ▶ Working together in a wide and open way across the community

TTER is critical about:

- ▶ Excursions and study tour
- ▶ Seminars or other events in close cooperation with companies and university
- ▶ Commissions and assignments

TTER doesn't fund:

- ▶ Master's Thesis
- ▶ Wages for possible voluntary work
- ▶ Retroactive projects
- ▶ Associations basic activity
- ▶ Profit making projects
